Lindsay -

Would next Wednesday (2/5) 10-10:45 AM ET or Thursday (2/6) 2-2:45 PM ET work? If not, it would probably have to be the following week.

Cheers,

Sharyn

Hi Lindsay: I spoke with Karl. He will have Sharyn offer up some times (dependant on her teams availability). If it works for a time next week we'll let you know. We'll also likely bring in several colleagues from OAP.

Thanks, Paul

Subject: NBB Meeting Request: Week of February 3rd.

Good Afternoon Chris and Team-

Together with our team of economists, we have conducted additional studies on cost issues related to biomass based diesel.

Specifically, we would like to share an analysis on the cost of carbon.

Please let me know a time next week that your team is available to sit down and discuss.

Thanks,

Lindsay

Subject: Will I See You in Philadelphia?

Dear Paul,

Just a note to let you know that BIO is now accepting nominations for the 2014 recipient of the **BIO George Washington Carver Award** for innovation in industrial biotechnology. To submit a nomination of a deserving person, please click on the link below and submit the completed form to (b) (6) by February 6, 2014.

The **BIO George Washington Carver Award for Innovation in Industrial Biotechnology** is presented annually at **BIO World Congress on Industrial Biotechnology** to an individual who has worked towards using industrial biotechnology innovation to develop new sustainable bio-based value-chains. George Washington Carver pioneered the creation and commercialization of sustainable biobased products, materials and energy derived from renewable agricultural feedstocks. Today companies are using industrial biotechnology to manufacture plastics, chemicals, fuels, pharmaceutical intermediates, and even food ingredients. Past recipients of the award include Patrick Gruber, (CEO-Gevo), Dr. Greg Stephanopoulos (MIT), Charles O. Holliday, Jr (former CEO -DuPont), Feike Sijbesma (CEO-DSM), Steen Riisgaard (CEO-Novozymes) and Dr. Jay Keasling (University of California, Berkeley).

[Click here to submit your nomination](#)

At BIO we are busy preparing for the 2014 BIO World Congress on Industrial Biotechnology, which will take place in just a few months. **NOTE:** the BIO World Congress will be held **May 12-15, 2014 in Philadelphia** this year, which is a bit earlier than last year. The event will bring together 1,250 leaders in business, academic, government to network and hear the latest on biofuels, renewable chemicals and biobased products. Plan now to attend the world's largest industrial biotech conference that will highlight the accomplishments of our industry.

I look forward to seeing you in Philadelphia during the beautiful month of May.

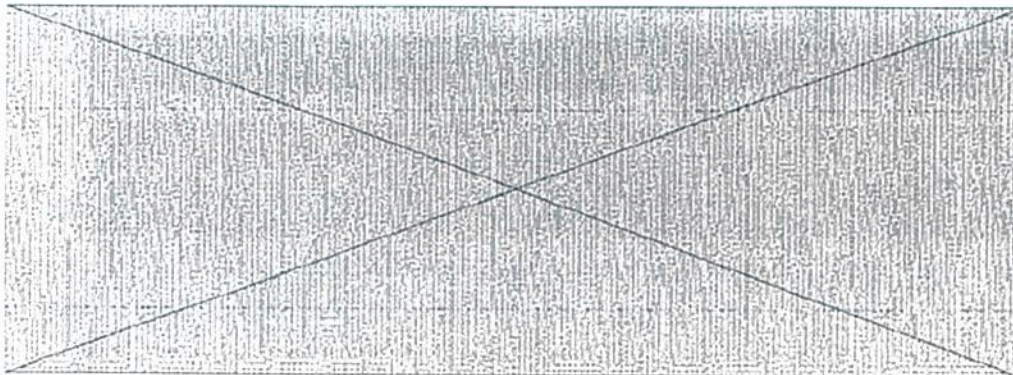

Best Personal Regards,

Brent Erickson

Hello ---

If you are receiving this e-mail, you are set to speak at NBB's Conference next week on the *Ask the Expert* panel.

If you have not yet registered for the conference, please do so by visiting <http://www.biodieselconference.org/2014/REGISTRATION/attendeereg.aspx> and using the code NBB SPEAK2014 as the promo code to get free registration.

If you have already registered but did not use the speaker promo code we are working on reimbursing you. I will be sending out individual e-mails on this later today.

In addition, NBB would like to invite you to our Welcome Reception Monday night from 7:00pm- 9:00pm on the West Mezzanine Terrace of the San Diego Convention Center, a great introductory event for meeting fellow biodiesel enthusiasts. NBB will also be hosting a private reception on Wednesday, January 22nd from 8:00pm to 10:00pm at the San Diego Convention Center's West Mezzanine Terrace (same location as before). Come and enjoy hors d'oeuvres and drinks and catch up on what's happening in biodiesel with members and the leadership and staff of the National Biodiesel Board. We hope you can join us!

I've attached the conference guide for your reference. Please contact me via e-mail or by calling the office at (b) (6) if you have any questions or need additional assistance. Thank you.

Best Regards,

Kirsten

WELCOME TO THE 2014 NATIONAL BIODIESEL CONFERENCE + EXPO!

Joe Jobe
CEO | National Biodiesel Board

STRONG!

Our industry is in the midst of one of the most significant challenges we have yet to face, however as we gather in San Diego, there is no doubting our strength.

Led by strong policy, strong markets and strong technical and environmental positions the industry just broke the annual biodiesel production record for the third year in a row. Now we stand strong in our resolution as we work to secure reasonable renewable volume obligation targets in the Renewable Fuel Standard for the year ahead. We lean on the experience and strength of what we can achieve when we unite towards a common goal. We are strong in knowing what we have overcome in the past, and we stand strong despite the obstacles.

We look forward to celebrating the united front of NBB's membership and the evolving efforts to continue to grow the U.S. market. We have worked hard to prepare a conference that helps you do business, and we know that is exactly why you are here. Historically the conference serves as a springboard for the industry with both production and market demand rising sharply soon after. We routinely hear from participants that the deals made at this event affect their balance sheets all year long.

There are some things you simply cannot miss this week. First, our general sessions on Tuesday and Wednesday are packed with relevant, timely, and important content. In small windows both days you will get the very best of this conference. I urge you to make these a priority. You will not regret it. Second, make a point to stop at the NBB booth in the trade show. It is the easiest way to strengthen our voice as we call on our leaders in DC to support consistent biodiesel policy.

Welcome to sunny San Diego, home of many biodiesel users and champions! We hope you enjoy this year's event and remain confident that as we stand together we stand strong to support a successful 2014.

GENERAL INFORMATION

Americans with Disabilities Act

If you have requirements that meet the regulations of the Americans with Disabilities Act, please notify an NBB staff member for assistance.

Attire

Attire for the conference is business casual.

Children

For safety reasons, children under 12 years of age are not permitted in the San Diego Convention Center at any time. Children also are not permitted in educational sessions as they may distract attendees. If child care assistance is needed, please contact the hotel concierge for a reference to local services.

Conference Evaluation

Your opinion matters! Please share your comments, complaints, and compliments by completing the online survey you will receive a few days after the conference. Your feedback helps us refine and customize content for future conferences.

Exhibit Hall

Learn about the latest products and services in the biodiesel industry at the San Diego Convention Center

Exhibit Hall Hours

Tuesday, January 21, 2014 12:15p.m.–7:00 p.m.
Wednesday, January 22, 2014 12:15p.m.–5:00 p.m.

Ground Transportation

The San Diego Marriott Marquis and Marina and San Diego Convention Center are approximately 3.3 miles from the San Diego International airport.

Taxi: The San Diego Marquis and Marina and San Diego Convention Center are approximately 3.3 miles from the San Diego International airport. Taxi fare will be approximately \$15 one-way.

Shuttle Service: Shuttle vans and buses operated by off-airport companies are a popular and convenient transportation option. Shuttle service is available at the Transportation Plazas across from Terminals 1 and 2, and curbside at the Commuter Terminal.

Advanced Shuttle	(600) 719-3490
Airport Shuttle	(619) 234-4403 (619) 254-0333
Cloud 9 Shuttle/Super Shuttle	(800) 9-SHUTTLE (974-0435)
Coronado Livery	(619) 435-6310
EZRide	(800) 777-0585
Prime Time Shuttle	(800) REDVANS (733-8267)
SeaBreeze Shuttles	(619) 297-7451

Rental Car: Car rental reservation boards are located near the baggage claim areas of Terminals 1 and 2. Use the courtesy phones provided to request shuttle transport to the car rental company of your choice. Please note that using a reservation board is not always necessary. Car rental shuttles regularly operate at the Terminal 1 center traffic aisle and at the traffic island at the far west end of Terminal 2. If you follow the signage to any of these areas, it is likely that a shuttle will be waiting.

Information Desk

Have questions? We have answers! Staff members are available to answer questions, provide directions, or arrange for anything else you may need at the registration area located on the first level San Diego Convention Center.

Lost and Found

Please report to the registration area located on the first level of the San Diego Convention Center.

Photography, Taping, and Other Recordings

Photography, audio taping, videotaping, and other means of recording the presentations or exhibits at the National Biodiesel Conference + Expo are not permitted without the written permission of both the presenter/exhibiting company and the NBB staff. Attendees who do not respect this requirement will be asked to leave.

Registration

The registration desk is located on the first level of the San Diego Convention Center.

Hours

Monday, January 20	12:00 p.m. – 7:00 p.m.
Tuesday, January 21	7:00 a.m. – 7:00 p.m.
Wednesday, January 22	7:00 a.m. – 5:00 p.m.
Thursday, January 23	7:00 a.m. – 10:00 a.m.

Registration is required for all participants to attend sessions or networking events and to enter the San Diego Convention Center. You should wear your official registration badge at all times for prompt admission to sessions. Report lost badges immediately to the registration desk. There is a \$25 fee for a replacement.

PLEASE REMEMBER TO BRING YOUR TICKETS TO TICKETED EVENTS.

Support the Badge

Those people wearing their official registration badge are supporters of the National Biodiesel Board and the National Biodiesel Conference + Expo. Without the financial support of all of those who have registered and paid to attend the conference, it would not be possible to offer this opportunity for the biodiesel industry to gather. Please encourage those individuals and companies who you may meet but are not registered to attend the conference to do so. Those who are supporting the conference are the individuals and companies with whom NBB recommends you do business. Please join us in patronizing and partnering with those individuals who have made the commitment to attend the National Biodiesel Conference + Expo.

Smoking

Smoking is strictly prohibited inside the San Diego Convention Center. There are designated smoking areas outside of the convention center.

Speaker Presentations

To reduce waste, the National Biodiesel Conference does not provide printed copies of speaker presentations. However, if you would like to self-print a copy before a session, simply visit the Presentation Services Center in Meeting Room #9 and follow the instructions provided. All presentations will be made available to attendees after the conference via the NBB Conference Website.

About the National Biodiesel Board

The National Biodiesel Board (NBB), founded in 1992, is the national trade association representing the biodiesel industry as the coordinating body for research and development in the U.S. Since its founding, NBB has developed into a comprehensive feedstock-neutral industry association, which coordinates and interacts with a broad range of cooperators, including industry, government, and academia. NBB's membership is comprised of state, national, and international feedstock and feedstock processor organizations, biodiesel suppliers, fuel marketers, distributors and technology providers.

Mission Statement

Representing America's first Advanced Biofuel, the National Biodiesel Board will advance the interests of its members by creating sustainable biodiesel industry growth. NBB serves as the U.S. biodiesel industry's central coordinating entity and will be the single voice for its diverse membership base. Industry success will be achieved through governmental affairs, communications and market development, and technical and quality assurance programs. We are dedicated to inclusiveness and integrity.

Vision

Biodiesel is recognized as our nation's Advanced Biofuel, creating a more stable, diversified domestic energy supply. With advancements in feedstocks, biodiesel will comprise 10 percent of diesel fuel demand by 2022.

For more information about the National Biodiesel Board, visit www.biodiesel.org or contact NBB.

National Biodiesel Board Anti-Trust Policy

NBB and its officers, directors, and employees fully support and intend to comply with all applicable federal and state antitrust laws and shall not engage in anticompetitive conduct or practice, nor allow NBB to be used by any member or other party for anti-competitive or unlawful purposes, including but not limited to the following kinds of prohibited conduct:

Any discussions or effort to directly or indirectly fix, raise, lower, control, recommend, suggest, or maintain prices on products. Any contract, combination, conspiracy, discussions, or effort to divide or allocate markets or customers. Any discussions or effort to engage in any boycott or considered refusal to deal. Any discussions or joint effort to unlawfully injure the business or trade of anyone.

Minutes will be kept of all meetings of the Board of Directors, the Executive Committee and Standing Committees. These minutes shall summarize accurately and concisely the action taken at the meeting.

NBB is also grateful to the US Department of Agriculture and the United Soybean Board for their support.

Green Fuel, Green Conference

NBB believes that being environmentally friendly shouldn't stop at the tailpipe. To that end, we have engaged the San Diego Convention Center in our mission to ensure our conference generates as little waste as possible. Our greening efforts will include:

Waste Reclamation

The San Diego Convention Center will provide waste receptacles throughout the event center area. San Diego Convention Center staff will properly sort and recycle all items behind the scenes, including but not limited to, glass bottles, plastic, aluminum, paper, and cardboard. We urge everyone to reuse shipping boxes and shipping peanuts.

Digital Marketing

Whenever possible, we will use technology to reach our target markets, rather than print and direct mail.

Tree-Free Printing

Whenever possible, we will use tree-free or recycled paper and soy inks.

Sponsor & Vendor Outreach

We will encourage our sponsors and vendors to join us in our mission and outline many ways each company can reduce its impact from the Event Center.

Attendee Outreach

We invite you to participate in this sustainability mission. You can help by limiting waste, considering public transportation, and more!

2014 SPECIAL GUESTS

Jim Craig

Jim Craig is best remembered for his outstanding goaltending in the 1980 Winter Olympics, where the

U.S. hockey team beat the heavily favored Russians and went on to win the Olympic gold medal in what's been labeled the greatest sports moment of the 20th Century.

Craig is currently president of Gold Medal Strategies, a

motivational speaking and sales training company. During the past 30 years, he has inspired and provided strategic and winning direction for employees and associates from more than 500 organizations and some of the world's most recognized brands. Craig's latest business book, *Gold Medal Strategies: Business Lessons from America's Miracle Team*, was published in 2011.

Dave White

Dave White served as Chief of the USDA's Natural Resources Conservation Service from 2009 to

2012, where he led

the nation's largest private lands natural resource conservation organization. White oversaw complex resource protection programs, working with diverse interests, developing conservation legislation, and providing leadership for the

successful implementation of natural resource goals.

White also spent significant time on Capitol Hill. In 2007, he was detailed to Iowa Senator Tom Harkin's office in Washington, D.C., where he helped craft the conservation title of the 2008 Farm Bill. He also served on a detail to Indiana Senator Richard Lugar and helped develop the conservation title of the 2002 Farm Bill.

He is currently the founder and principal of United Policy, LLC, an environmental consulting firm, and president of Ecosystem Services Exchange, a new start-up company devoted to advancing water quality trading.

John Deere proudly supports the 2014 Biodiesel Conference and Expo

John Deere commends the biodiesel industry's efforts to consistently provide a high-quality energy source and believes biodiesel has the potential for an even greater role in global energy supplies. We're proud to use biodiesel as the factory fill for our Agricultural, Construction and Forestry products.

JOHN DEERE

2014 SPECIAL EVENTS

Monday Evening Networking Reception

Monday, January 20

7:00–9:00 p.m. | West Terrace – SDOC

The Networking Reception will be hosted at the San Diego Convention Center on Monday, January 20, 2014 from 7:00 p.m.–9:00 p.m. This is a "CAN'T MISS" networking event! Enjoy great food and beverages with fellow biodiesel enthusiasts.*

Next Generation Scientists for Biodiesel poster session

Tuesday, January 21

5:00–7:00 p.m. | Exhibit Hall B

The poster session will be in the expo hall (Booth #713) featuring the research of young scientists who are members of the Next Generation Scientists for Biodiesel. Today's students are tomorrow's biodiesel industry leaders, so please stop by and get to know them!

Biodiesel Vehicle Showcase

Tuesday, January 21

5:30–6:30 p.m. | Exhibit Hall B

Ride-and-Drive

Wednesday, January 22

8:00–10:00 a.m., 12:30–2:00 p.m. | Driveway outside Expo B

Kick the tires or get behind the wheel of these biodiesel-powered beauties and discover your next vehicle purchase! The Ride-and-Drive will conveniently depart from right outside the Convention Center doors.

National Biodiesel Foundation Silent Auction

The National Biodiesel Foundation will host its Sixth Annual Auction and Fundraiser

January 21 and 22, 2014.

Auction items include travel packages, a 2015 National

Biodiesel Conference + Expo package, autographed items and more. The auction is open during conference hours. A cash raffle will be held at Monday's reception. Join the fun while supporting biodiesel!

National Biodiesel Board Membership Meeting

Thursday, January 23

10:15–11:15 a.m. | Room 6E

Open to National Biodiesel Board Members and invited guests

**Ticketed Event: Some events require additional fees. Admission will be granted to only ticketed attendees. Tickets may be purchased separately. See registration form for more details.*

Conferences

POCKET GUIDE 21

Tuesday, January 21, 2014 (continued)

8:30–10:00 a.m. | Room 6D

Advances in feedstock technology

The biodiesel industry has set its sights on replacing 10 percent of domestic diesel fuel demand by 2022. Both the federal government and private equity have invested substantially to advance feedstock technology. Join this interactive session to learn how research programs are helping to ensure a strong and robust supply of sustainable feedstock to facilitate future biodiesel growth.

Speakers: Joe Riley, FEC Solutions; Beth Calabotta, Monsanto; Jonathan Burbaum, ARPA-E; U.S. Department of Energy

Moderator: Alan Weber, MARC-IV

9:00–10:00 a.m. | Room 7AB

Navigating the QAP

It's a new world for RIN compliance. Come hear from the EPA and industry experts about how to succeed under the Quality Assurance Plan regime. What is the EPA requiring? What are the best practices? And what resources are available to help you ensure compliance? This session will help you navigate the QAP waters.

Speakers: Robert Barton, Genscape; Susan Olson, Genscape; Wayne Presby, White Mountain Biodiesel, LLC; Lindsay Fitzgerald, National Biodiesel Board

Moderator: Larry Schafer, The Diamond Group

10:00–10:30 a.m. | Ballroom 6 Lobby

Break

10:30 a.m.–12:15 p.m. | Room 6AB

General session 1

Do you believe in miracles?

There are few industries that have faced and overcome more adversity than biodiesel. Yet as the American energy landscape begins to experience a meaningful transformation, biodiesel is right there in the mix, coming off another record year of production. While challenges like uncertainty over the federal Renewable Fuel Standard continue to push our industry to its limits, biodiesel has proven one thing: we're strong and getting stronger, while making our nation stronger, too. Winning as an underdog is something our keynote speaker knows something about. Olympic gold medalist Jim Craig, goalie for 1980 USA "Miracle on Ice" Hockey Team, will show us what can happen when you don't give up. And it doesn't take a miracle.

Speakers: Joe Jobe, National Biodiesel Board CEO; Donnell Rehagen, National Biodiesel Board COO; Jim Craig, Gold Medal Strategies

12:15–1:30 p.m. | Exhibit Hall B

Lunch

12:15–7:00 p.m. | Exhibit Hall B

Expo Hall open

1:30–2:30 p.m. | Room 7AB

Fuelin' groovy in California

Many consider California the "greenest" state in the nation, and in meeting environmental goals here, biodiesel is epic. In this session biodiesel fleet managers from Southern California will share their experience. Public and private fleet managers will candidly discuss overcoming obstacles, as well as some surprising benefits they've encountered. Come with some swag questions for this interactive session.

Speakers: Jim Ruby, University of California–San Diego; Lisa McGhee, San Diego Airport Parking Company; Lydia Pellecer, San Diego Gas & Electric Company; Gene Robinson, San Diego Unified School District

Moderator: Andy Christman, New Leaf Biofuel Corporate

1:30–3:00 p.m. | Room 6E

Diesel, hybrids & gas, oh my! Biodiesel in a new energy world

The transportation fuel picture is changing. While biodiesel is on course to displace ever-increasing amounts of petroleum, you could say the same for natural gas, electric vehicles, and efficiency improvements. Are these alternatives competitors or are they complimentary to biodiesel? We'll examine how biodiesel fits into our transportation options for the future.

Speakers: Doyle Sumral, NTEA—The Association for the Work Truck Industry; Tom Fulks, Diesel Technology Forum

Moderator: Don Scott, National Biodiesel Board

1:30–3:00 p.m. | Room 6D

Fuel economy, power, and performance: The latest diesel offerings

It seems the automakers are putting the pedal to the metal when it comes to the production of new diesels for the U.S. Is diesel finally starting to live up to its potential? You won't want to miss this panel of vehicle and engine manufacturers discussing their newest diesel models and the tremendous fuel economy, power and performance they deliver.

Speakers: General Motors Representative; Chrysler Representative; Spencer Nicol, Hino Motor Sales USA; Caterpillar Representative

Moderator: Jennifer Weaver, ASG

Wednesday, January 22, 2014

7:00 a.m.–5:00 p.m.
Registration open

7:00–8:30 a.m. | Bayside Corridor
Breakfast

8:00–10:00 a.m. | Driveway outside Expo B
Ride-and-Drive

2014 is shaping up to be another exciting year for new diesel vehicle introductions, and now is your chance to take a spin around San Diego in some of them! Come on out and kick the tires or get behind the wheel of these biodiesel-powered beauties and discover your next vehicle purchase! The Ride-and-Drive will conveniently depart from right outside the Convention Center doors.

8:30–10:00 a.m. | Room 7AB

Redefining win-win: Bioheat's got game
What do America's farmers have in common with the heating oil dealers of the Northeast and beyond? More than you might think. They've formed a symbiotic relationship that has made the coveted "win-win" partnership a reality. This session provides insight from field-to-home, including why farmer leaders elected to lead the charge in the oil heat renaissance and the dramatic impact. You'll also learn why the heating oil market could be a game-changer for biodiesel.

Speakers: John Maniscalco, New York Oil Heating Association; Michael Ferrante, Massachusetts Energy Marketers Association; Eric DeGesero, Fuel Merchants Association of New Jersey; Michael Trunzo, New England Fuel Institute; Andy Chvatal, Nebraska Soybean Board; Don Farrell, Indoor Comfort Marketing; Timothy Keaveney, HERO BX

Moderators: Greg Anderson, Nebraska Soybean Board and John Huber, National Oilheat Research Alliance

8:30–10:00 a.m. | Room 6D

State of the states and Canada:
The legislative and regulatory landscape
Each year, state policies and regulations seem to play a larger role in the overall health of the biodiesel industry. With the continual growth of greenhouse gas reduction programs, biodiesel mandates, and consumption incentives, state policies are more influential than ever. Come hear what happened in 2013 and what we are likely to see in 2014.

Speakers: Shelby Neal, National Biodiesel Board; Scott Hedderich, REG; Ian Thompson, Western Canada Biodiesel Association

8:30–10:00 a.m. | Room 6E

The next generation of biodiesel research
We often say today's students are tomorrow's scientific thought leaders. But today's students already contribute vastly to the body of science that could impact technological breakthroughs, feedstock development and acceptance of biodiesel. To foster collaboration, provide accurate information and encourage young scientists on their path, the National Biodiesel Board and the United Soybean Board created the Next Generation Scientists for Biodiesel program in 2010. In this session, you'll hear from some NGSB members as they present their biodiesel-related research. Come get to know them today, because tomorrow, they could be top government scientists, university professors, or running your lab!

Moderator: Scott Fenwick, National Biodiesel Board

10:00–10:30 a.m. | Ballroom 6 Lobby
Break

10:30 a.m.–12:15 p.m. | Room 6AB

General session 2

Understanding the policy climate

The biodiesel industry's future is inexorably tied to policy, and the federal Renewable Fuel Standard is make-or-break. Our federal panel, which includes a former U.S. Senator and Representative, will examine how biodiesel businesses can best work within the current policy climate while charting our future course. State policies on the books are also having a big impact on biodiesel, and our host state of California, home of the Low Carbon Fuel Standard, is a prime example. We'll hear from the head of the Air Resources Board, tasked with implementing this landmark policy. We'll also hear from Dave White, the former Chief of the Natural Resources Conservation Service, who has unique perspective on how we can meet our production goals sustainably.

Speakers: Steven J. Levy, Sprague Operating Resources; NBB Chairman, Richard Corey, California Air Resources Board; Anne Steckel, National Biodiesel Board; Senator Byron Dorgan (Fmr.); Rep. Kenny Hulshof (Fmr.); Dave White (Fmr.) Chief of Natural Resources Conservation Service

12:15–1:30 p.m. | Exhibit Hall B
Lunch

12:15–5:00 p.m. | Exhibit Hall B
Expo Hall open

12:30–2:00 p.m. | Driveway outside Expo B
Ride-and-Drive

Wednesday, January 22, 2014 (continued)

1:30–2:30 p.m. | Room 7AB

Expand your brand-width

Have you sat in a Jacuzzi, played Frisbee or Googled anything lately? As the makers of these products know, the single most valuable asset of any business or product is its brand. Companies spend billions building and protecting them. For biodiesel, you are the brand, and making your mark can support the industry's success in an RFS world. This session will introduce you to the benefits of branding your product, company, or service and will give you ideas you can implement immediately.

Speakers: Frances Reimers, PCI; Edith Bullard, PCI

1:30–3:00 p.m. | Room 6E

Transparent transactions:

Creating balance among buyers and sellers

With biodiesel quickly entrenching itself in the petroleum industry, a common cry among buyers and sellers alike is for "transparency." How do fuel distributors, fleet managers and terminal operators create an ironclad RFP? What strategies are available to ensure they procure biodiesel and blends at a competitive price? Who is benchmarking biodiesel values, and how relevant are these postings once biodiesel is blended into heating oil and diesel fuel? Learn strategies that will help you gain clarity and succeed in buying and selling biodiesel.

Speakers: Paul Nazzaro, Nazzaro Group; Louise Burke, Argus Media, Inc.; Dolores Santos, Oil Price Information Service; Susan Olson, Genscape

Moderator: Gene Gebolys, World Energy

1:30–3:00 p.m. | Room 6D

California state policy update

As implementation of the Low Carbon Fuel Standard continues, California is becoming a major U.S. market for biodiesel. Come hear the latest on LCFS regulations and legislation, Energy Commission grant funding and other key issues related to conducting business in California.

Speakers: Simon Mui, Natural Resources Defense Council (NRDC); Don Scott, National Biodiesel Board; Timothy J. O'Connor, Environmental Defense Fund

Moderator: Shelby Neal, National Biodiesel Board

3:00–3:30 p.m. | Ballroom 6 Lobby
Break

3:30–4:30 p.m. | Room 7AB

Ask the expert

Curious about future RFS volumes? Wondering about pathways for new feedstocks? Have a question on imports from Asia or South America? Come hear directly from Environmental Protection Agency and other government experts about these pivotal questions as you plan for another year of biodiesel production. This panel discussion will include overview of expectations for 2014 Canadian Renewable Fuels Programs.

Speakers: Paul Argyropoulos, U.S. Environmental Protection Agency; Harry Baumes, U.S. Department of Agriculture; Steven Chalk, U.S. Department of Energy (invited); Scott Thurlow, Canadian Renewable Fuels Association

Moderator: Larry Schafer, The Diamond Group

3:30–5:00 p.m. | Room 6E

The final frontier? Technical research to open new markets

As biodiesel boldly goes into a leading role as an Advanced Biofuel under the RFS, obligated parties and users are considering biodiesel use in new markets. Learn about the latest research helping to spur the voyage to these new markets, including higher blends in home heating oil, railroads, and pipeline biodiesel transport.

Speakers: Steve Fritz, Southwest Research Institute; Rod Lawrence, Magellan Midstream Partners, LP; Rod Woodford, Explorer Pipeline; Tom Butcher, Brookhaven National Laboratory

Moderator: Todd Ellis, Imperium Renewables

3:30–5:00 p.m. | Room 6D

More science = more sustainability

The National Biodiesel Board and the scientific community continue to improve the research and quantification of biodiesel's sustainability benefits. How can the biodiesel industry get stronger, stand taller, and become more sustainable as it grows? Ask NBB's lifecycle experts your questions about food vs. fuel, greenhouse gases, land use change, feedstocks and more.

Speakers: Don O'Connor, S&T Squared Consultants; Roger Wolf, Iowa Soybean Association; Dev Shrestha, University of Idaho; Don Scott, National Biodiesel Board

Moderator: Jim Duffield, U.S. Department of Agriculture

Thursday, January 23, 2014

Breakfast

8:00–9:00 a.m. | Room 6D

The big, big session featuring the biggest ag state

California is the nation's top agricultural state, and has been for more than 50 years. Join this conversation with local farmers and leaders as they discuss the ins and outs of this \$37.5 billion-a-year industry. You're invited to participate in a dialogue about managing our diverse agricultural resources to best support rising demand for food, fuel and everything else.

Speaker: Eric Larson, San Diego County Farm Bureau; Stephen Kaffka, University of California–Davis

Moderator: Kayla Hedrick, Osborn Barr

8:00–9:00 a.m. | Room 6E

New technology diesel engines:

Confirming biodiesel's benefits and impacts

As diesel technology evolves and becomes increasingly more sophisticated, what impact will biodiesel blends have on them? You'll hear the latest research from technical experts at world-renowned research organizations. Learn the benefits and long-term impacts of biodiesel in New Technology Diesel Engines that are as clean—if not cleaner—than natural gas!

Speakers: Todd Toops, Oak Ridge National Laboratory; Aaron Williams, National Renewable Energy Lab; Giovanni Cavataio, Ford Motor Company Research and Advanced Engineering (invited); Mike Lance, Oak Ridge National Laboratory

Moderator: Lewis Bainbridge, United Soybean Board

8:00–9:00 a.m. | Room 7AB

Environmental certification as a market differentiator

The Roundtable on Sustainable Biomaterials has developed an environmental certification program for biofuels and raw materials to help producers and distributors access markets which value or require supply chain certification. This includes the California Low Carbon Fuel Standard, some municipalities, large corporate entities and the sale of feedstock into the European biodiesel market. In this session, you'll hear from CEOs of companies with jatropha plantations and camelina fields about how RSB certification helps them differentiate themselves, adds value to their business, and strengthens their business relationships.

Speakers: Richard Palmer, Global Clean Energy Holdings; Atul Deshmane, Whole Energy

Moderator: Matthew Rudolf, Roundtable on Sustainable Biomaterials

9:00–9:15 a.m. | Ballroom 6 Lobby

Break

9:15–10:00 a.m. | Room 6D

Closing session

Not just a job, an adventure:

The greening of the U.S. Navy

The U.S. Navy is among the fiercest champions of renewable energy, knowing first-hand the entanglement of energy security and national security. Yet the accompanying sustainability is far from an afterthought. Rear Admiral Len Hering, Sr. (U.S. Navy, retired) is a prominent military and civilian sustainability leader who led efforts to bring B20 to the Navy in Southern California in the new millennium. His efforts, which

also included water conservation, wind and photovoltaic technology, traveled up and down the chain of command, reaching all levels in Navy facilities nationwide. When he retired in 2009, he was noted as one of the Navy's top experts in base operations and facility support with an emphasis on sustainability and the environment. In this session, Hering will share his adventure of leading meaningful change that has lasting impact.

Speaker: Len Hering, U.S. Navy (Ret.) and California Center for Sustainable Energy

SCHEDULE AT A GLANCE

Monday, January 20, 2014

- 4:00–5:00 p.m. | Room 7AB
 - Your trade association:
NBB member benefits + intro to BQ-9000
- 7:00–9:00 p.m. | West Terrace
 - Monday Evening Networking Reception

Tuesday, January 21, 2014

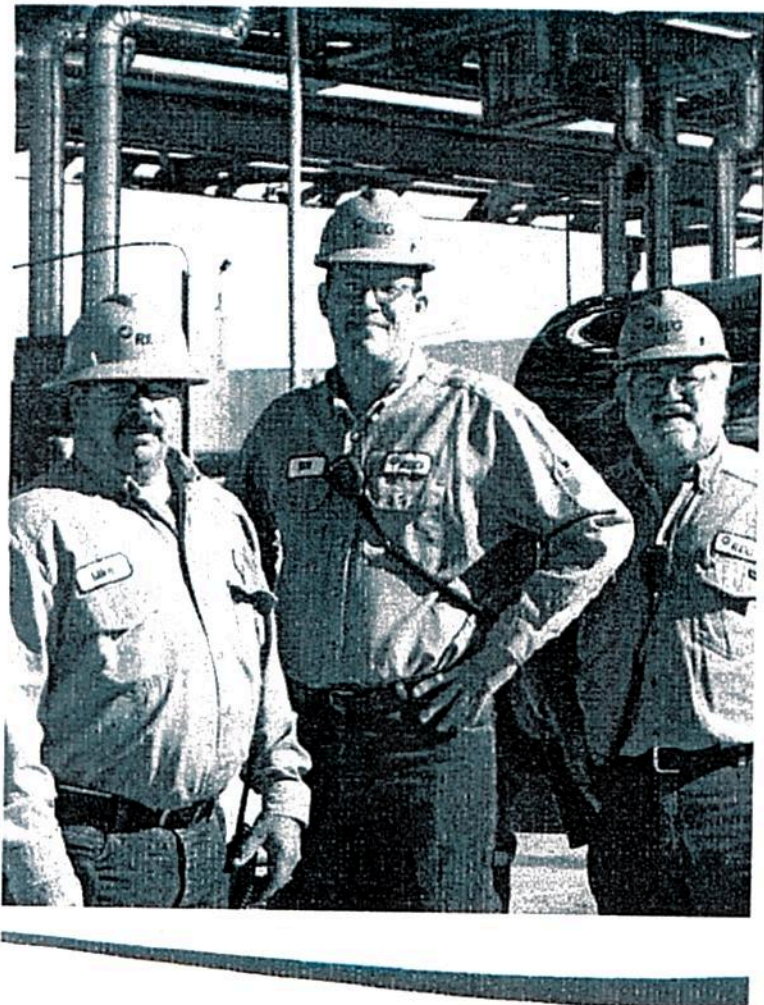

- 7:00–8:30 a.m. Breakfast | Bayside Corridor
- 8:30–9:00 a.m. | Room 7AB
 - 30 minutes could save you cash on a new car
- 8:30–10:00 a.m. | Room 6E
 - ASTM specifications:
Maintaining existing markets and creating new opportunities.
- 8:30–10:00 a.m. | Room 6D
 - Advances in feedstock technology
- 9:00–10:00 a.m. | Room 7AB
 - Navigating the GAP
- 10:00–10:30 a.m. Break | Ballroom 6 Lobby
- 10:30–12:15 p.m. General session 1 | Room 6AB
 - Do you believe in miracles?
- 12:15–1:30 p.m. Lunch | Exhibit Hall B
- 12:15–7:00 p.m. Expo Hall open | Exhibit Hall B
- 1:30–2:30 p.m. | Room 7AB
 - Fuelin' groovy in California
- 1:30–3:00 p.m. | Room 6E
 - Diesel, hybrids & gas, oh my! Biodiesel in a new energy world
- 1:30–3:00 p.m. | Room 6D
 - Fuel economy, power, and performance:
The latest diesel offerings
- 3:00–3:30 p.m. Break | Ballroom 6 Lobby
- 3:30–5:00 p.m. | Room 6E
 - Federal affairs overview
- 3:30–5:00 p.m. | Room 6D
 - Behind the scenes with *GasHole* directors
- 5:00–7:00 p.m. | Exhibit Hall B
 - Networking reception
 - Next Generation Scientists for Biodiesel poster session
- 5:30–6:30 p.m. | Exhibit Hall B
 - Biodiesel Vehicle Showcase

Wednesday, January 22, 2014

- 7:00–8:30 a.m. Breakfast | Bayside Corridor
- 8:00–10:00 a.m. Ride-and-Drive | Driveway outside Expo B
- 8:30–10:00 a.m. | Room 7AB
 - Redefining win-win: Bioheat's got game
- 8:30–10:00 a.m. | Room 6D
 - State of the states and Canada:
The legislative and regulatory landscape
- 8:30–10:00 a.m. | Room 6E
 - The next generation of biodiesel research
- 10:00–10:30 a.m. Break | Ballroom 6 Lobby
- 10:30–12:15 p.m. General session 2 | Room 6AB
 - Understanding the policy climate
- 12:15–1:30 p.m. Lunch | Exhibit Hall B
- 12:15–5:00 p.m. Expo Hall open | Exhibit Hall B
- 12:30–2:00 p.m. Ride-and-Drive | Driveway outside Expo B
- 1:30–2:30 p.m. | Room 7AB
 - Expand your brand-width
- 1:30–3:00 p.m. | Room 6E
 - Transparent transactions:
Creating balance among buyers and sellers
- 1:30–3:00 p.m. | Room 6D
 - California state policy update
- 3:00–3:30 p.m. Break | Ballroom 6 Lobby
- 3:30–4:30 p.m. | Room 7AB
 - Ask the expert
- 3:30–5:00 p.m. | Room 6E
 - The final frontier? Technical research to open new markets
- 3:30–5:00 p.m. | Room 6D
 - More science = more sustainability

Thursday, January 23, 2014

- 7:00–8:00 a.m. Breakfast | Bayside Corridor
- 8:00–9:00 a.m. | Room 6D
 - The big, big session featuring the biggest ag state
- 8:00–9:00 a.m. | Room 6E

NBB - Ask the Experts Planning Call

Changed: What is it: NBB - 11th annual National Biodiesel Conference & Expo
San Diego Convention Center
111 W. Harbor Dr.
San Diego, CA 92101
When is it: January 20 – 23

The Panel:

Title: A Conversation: Ask the Experts

Ask the Experts – Conversation – 1 hour, 4 speakers, one moderator, no PPT, open mic questions from moderator and audience
Wednesday, January 22
3:30 – 4:30 pm

Overview: Curious about future RFS volumes? Wondering about pathways for new feedstocks? Have a question on imports from Asia or South America? Come hear directly from Environmental Protection Agency and other Government experts about these pivotal questions as you plan for another year of biodiesel production. Panel Discussion will include an overview of expectations for 2014 Canadian Renewable Fuels Programs

Moderator: Larry Schafer, National Biodiesel Board, Senior Advisor

Panelist:

- Paul Argyropoulos, Senior Policy Advisor, EPA Office of Transportation and Air Quality
- Harry Baumes, USDA, Director Office of Energy Policy and New Uses

• Mindi Farber-DeAnda, U.S. Energy Information Administration
• Scott Thurlow, President Canadian Renewable Fuels Association
If you have questions, then please let me know.
Thank you

Subject: intermediate feedstocks, et al.

Paul: Hope you are well. Wanted to follow back up with you on the memo we provided concerning a path forward on intermediate feedstocks. I am assembling my companies and wanted to get a feel for how we might best discuss this with the agency. As always the myriad of challenges makes times tight so I wanted to get a sense when we might be able to discuss with the team. Thanks.
